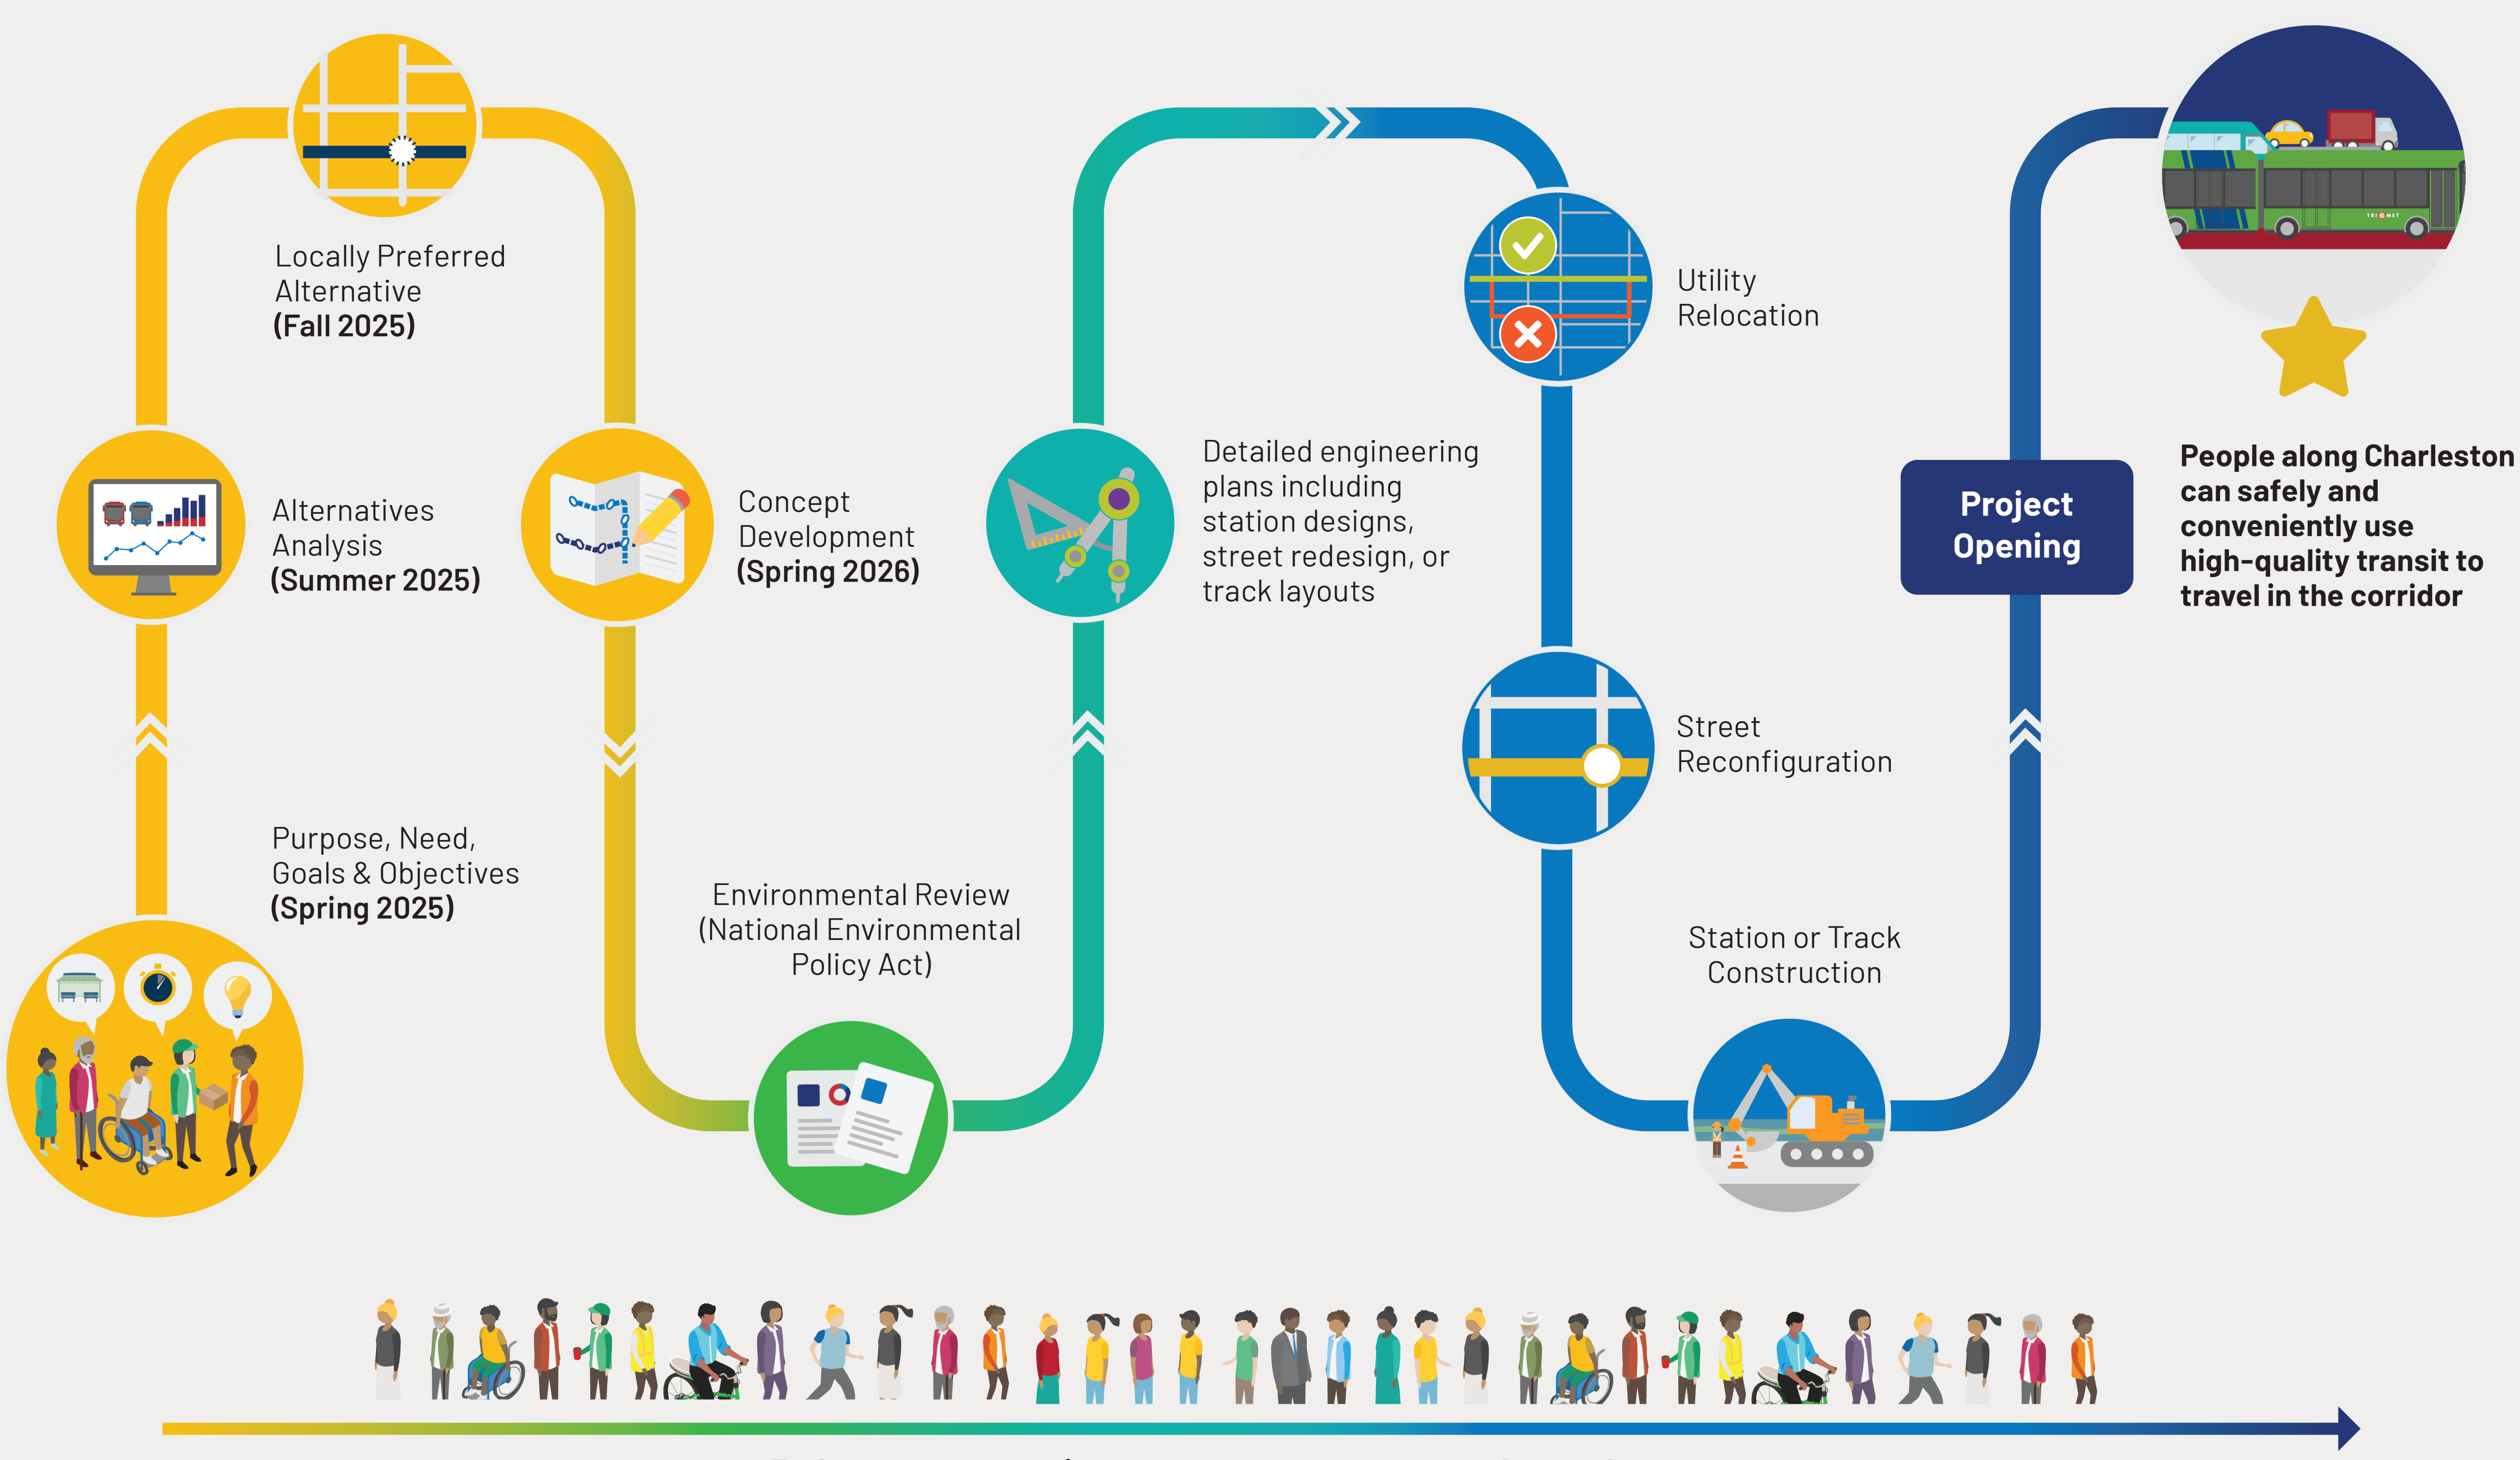
LET'S GO CHARLESTON

PROJECT TIMELINE

Alternatives Analysis Study	Environmental	Planning and Engineering	Construction	Service
We are here. RTC will be studying Alternatives 2024-2026	This future step can take between 3-5 years	This future step can take between 1-3 years	This future step can take anywhere between 2 to 5+ years depending on the transit technology and complexity	



Robust community engagement occurs throughout

THE ALTERNATIVE ANALYSIS PROCESS

An Alternatives Analysis evaluates different transportation solutions for a specific corridor to determine the best option that meets community needs and project goals.

IDENTIFY	SCREEN	EVALUATE	ENGAGE	RECOMMEND	NEXT STEPS
Consider broad range of potential transportation alternatives	Screen those that best address project purpose, goals, and community needs	Evaluate using criteria like cost, travel efficiency, environmental impacts, and community benefits.	Consult community members, local businesses, and CBOs	Propose "locally-preferred alternative," balancing cost, benefit, and feasibility.	Develop plans for detailed design, funding, and envirnmental review.
